

SPEECH AND HEARING SCREENING

The Speech and Hearing Center will conduct speech and hearing screenings for \$20.00 on Sept. 18 and 21 at your child's school for children 3-years old and older.

Areas screened include: hearing acuity, speech intelligibility and language acquisition skills. Screenings are conducted by a licensed Speech/Language Pathologist. The screening helps determine if further assessment is warranted to rule out a communication deficit and need for intervention services. Written results and recommendations are provided the day of the screening.

As you may know, deficits in hearing, speech and/or language skills can negatively impact your child's academic performance and social communication with others. Early identification and intervention is paramount in ensuring your child's success in school and beyond.

Please feel free to contact Carla Wiksell, MA, CCC-SLP, at 423-622-6900 if you have any questions or concerns about the screening.

If you wish to take advantage of these services, please complete the information below and return this form and payment to your child's teacher on or before the test day. By filling out this form, you are authorizing us to provide school administration with testing results for your child's file. Please make checks payable to The Speech and Hearing Center. Thank you.
